

'Success belongs to those who believe in the power of their dreams.'

Dear Parent

At Gurukul The School, learning is a gradual process and exploring knowledge is a continuous delight. We ensure that children learn naturally and absorb as much as possible. The yearlong efforts invested in cementing students' brilliant ideas into the moulds of knowledge and application, have borne rich dividends. We have seen our students bubbling with enthusiasm and we have optimised their latent skills by providing opportunities of learning through vast range of activities.

While the session 2016-17 inches towards its closure, we have our plans set to make the denouement, a time worth remembering. A complete ensemble of scholastic and co-scholastic activities is lined up to make this month extra special. While the students will get the zing of exuberance with their fun trip and various other activities including skill building which would delineate the path of personality development in coming session.

The culmination of one academic year marks the beginning of another new episode of life and learning. Hence, we suggest our students of classes VI - X to take up regular reading of newspapers, journals and literature during the session break. They should practice good handwriting with correct formation of letters for it is proven that handwriting reflects the persona of an individual - finer the better.
