

***'Help others to achieve their dreams and you will achieve yours' – Les Brown***

Dear Parent

With an inspiration to make learning a joyous experience and attaining knowledge an insatiable quest, we find great delight in creating conditions for application based multi-dimensional education for Gurukulites so that they think, analyse and relate the lessons of classroom with the learning of life. An ensemble of innovative activities and academic planner is chartered to raise our students in accordance with the challenges of changing times.

The little Pre-primary battalion got a delightful head-start for the new session by developing the bonding with their learning partners- friends and teachers. A special assembly was organised on the occasion of Baisakhi to instill respect for food. The Senior School saw the number of meritorious students, soaring to an unprecedented level, and celebrated their accomplishments in the most awaited event of the year- The Appreciation Day.

The month of May is tinged with summer delights and learning non-stop where our tiny toddlers will celebrate Aam Mahotsava and enjoy their ISA activity. A beautiful memorabilia will be created by clicking the pictures of the little Pre-Nursery children with their loving mom and dad to mark the International Family day.
