'A dream becomes a goal when the action is taken towards its achievement.'

Dear Parent

Heartiest Greetings!

In keeping up with its motto to cater to individual learning styles, tap the talent and hone the skills of students, Gurukul The School continues with its legacy of churning out the best educational practices by striking a balance between co-scholastic and scholastic domains. We are proud to share that the School has been bestowed with **World Education Award 2017** by **Elets Technomedia** and **Global Education Award 2017** by **Scoo News** for making **exemplary contributions in the field of education with its innovative practices and holistic approach.**

The month of September saw the students expressing their love and gratitude towards their teachers, imbibing new dimensions of learning and celebrating the fervour of Hindi Diwas. With the recharging zing of the Autumn Break, the month of October steps in with a gusto wherein the treasure trove of learning will steer further with renewed zeal. The periphery of this month will include educational visits, inter-class activities, thought kindling discussions and the festive hues. All in all, an eventful month ahead!
