‘School is a building which has four walls and tomorrow inside.’ – Lon Walters

Dear Parent

At Gurukul The School, we believe that teachers are those pillars, who transform themselves into bridges to facilitate their students' smooth sail in the journey of life. As the unflinching source of inspiration, teachers push the students with motivation and support and bring them to an enhanced understanding of their SELF - an actualization of their latent skills and the means to excel them.

The month of August was thickly dotted with stupendous accomplishments of our student squad in an array of activities and activities at Intra- school as well as Inter- school levels. The little birdies of Kindergarten celebrated Independence Day with ‘Swabhimaan - Patriotic song recitation’ and tied friendship bands on the best friends of human race- The Trees, to mark the occasion of Friendship Day. In the Senior School, the Investiture Ceremony saw the baton of responsibility and leadership passed on by the Student Council 2016-17 to the representatives of Prefectural Board 2017-18.

The coming month will witness the Gurukulites expressing their gratitude for their teachers and furthering the dimensions of their learning trajectory. Continuing the legacy of parental involvement, the ‘My Papa Chef - Food Without Flame’ activity will create a boulevard for the fathers of Nursery children to flaunt their culinary skills. A rich tribute to the serenity of mother tongue Hindi will be given by celebrating Hindi Saptah. A befitting epilogue for the month full of exuberance will come through the zing of a field visit.
