Dear Parent

Heartiest Greetings from Team Gurukul !

The objective of education is to assist the students to unfold their latent talents and to help them grow to the highest possible level in as many fields as possible. In addition to facilitating their physical, mental, spiritual, aesthetic and ethical growth, the school bestows them with an indomitable spirit. The month of September began with the celebration of Teacher’s Day wherein the students paid their tribute to their teachers for their selfless contribution, hard work and dedication.

The hard work of our meritorious students, who burnt the midnight oil to perform to the best of their ability in Half Yearly Exams, would now pay great dividends. We are sure that the seeds of efforts are going to ripe into the sweetest fruits in their term end results.

Term II, very much like Term I, is going to be an amalgamation of scholastic as well as co-scholastic activities which will aim at the holistic development of the child. The activities for the month of October are mentioned below:
