**“Realize deeply that the present moment is all you have. Make the NOW the primary focus of your life”  
- Eckhart Tolle**

Dear Parent

Greetings from Gurukul – The School !!

With the advent of the New Year come new aspirations, new hopes, new anticipations and new challenges. This is the time when students are infinitely charged up and were running at full steam for the final term examinations with the next destination in full view. Simultaneously, it is the time when they have to understand their potential and recognize the need of relentless efforts and optimum utilization of every moment to achieve desired Goals.

We all are aware that time keeps fleeting away but it is the present moment that provides us with abundant opportunities. No one can appreciate the power of now more than a student who has recently appeared for the final examinations with agglomeration of multiple subjects. It is imperative that their potential should be led in a positive manner to produce the optimum result. So once you understand the power now, unburden yourself of all the anxieties and start preparation for a better tomorrow to welcome the exams not as a challenge but as a part and parcel of life. So **DO YOUR BEST AND LEAVE THE REST!**
