'A smile from a child is packaged sunshine and rainbows.'

Dear Parent

Greetings for the Day!

Considering the need of modern times, we at Gurukul The School strive diligently for transforming our young children into future leaders equipped with modernity amalgamated with tradition. Therefore, our primary focus is not only on instilling in them the ever-important values, but also utilizing advance and practical learning pedagogies for their intellectual and holistic well being.

The month of April witnessed the beautiful bonding between the teachers and the kids, where the teachers welcomed their kids with open arms and an ever-loving heart. The blooming buds enthusiastically celebrated their school's 17th birthday with razzle-dazzle followed by class party in which all of them shared and enjoyed sumptuous meals. Kids having their birthday in the months of April, May and June were showered with the blessings of the Almighty through holy Hawan.

The month of May ushers the taste of a summer bouquet of activities and celebrations. Each activity at Gurukul is the food to satiate the learning minds. Our bambinos will have an exclusive 'Labour Day Celebration' and educational tour of their esteemed school followed by a fun-filled clown party heralding the summer vacations.
