**“Create the highest, grandest vision possible for your life, because you become what you believe.”**

Dear Parent

Heartiest greetings from Team Gurukul!

Climate change has become a global problem because of the growing level of greenhouse gas emissions due to insatiable human greed. If this trend continues, catastrophic consequences are likely to destroy the mother Earth. It is high time that we understand our accountability as global citizens and brace ourselves to shoulder the massive responsibility to save the planet. Always remember- our little acts can bring about big changes. So develop the habits of minimum water consumption, save electricity, promote sustainable development and go green.

April has been a busy month with commencement of new session, process of subject and stream selection, parent orientations and rapport-building sessions with students. Multiple mass assemblies of classes VI-XII have also added glow and glimmer to the persona of scintillating Gurukulites.

The month of May is expected to be hotter and busier in comparison to the previous years. Koffee@Gurukul, Literary Week and much awaited Investiture Ceremony are the highlights of the month. So the ever-enthusiastic students and the zealous teachers are all set to welcome the month with happy vibes and positive energy. Apart from paying attention to children’s studies and recreational activities, you are requested to take all the possible measures to beat the heat for yourself and your loved ones. So stay cool and hydrated till we meet again.

**Upcoming activities for the month of May 2019**
